MBR Skincare

INDUSTRY
- Ecommerce

ABOUT PROJECT

MBR Skincare operates at the forefront of the beauty industry creating innovative luxury skincare products for customers. The company offers the latest scientific discoveries that are supported by in-depth research and biochemical experiments. The website is built on Magento –one of the most popular CMS platform on the e-commerce market. Mangosoft team supported migration from Magento 1.0 to Magento 2.3. The newer Magento version comes with a set of new features and opportunities, such as higher speed, enhanced performance and strengthened hashing algorithms.
